

HLTAID006 Provide advanced first aid

Application and Relevance

This unit contains the knowledge and skills to provide an advanced first aid response in the event of an emergency. It is relevant for personnel who may be required to provide, coordinate and manage a first aid response across a range of complex situations, including community and workplace settings.

Course Currency Status: current

Duration

- 18 hours face-to-face classroom/workplace training and assessment OR
- 8 hours face-to-face classroom/workplace training and assessment with approx. 6 hours pre-work (*Advanced First Aid Skills* text + workbook questions)

Course Content

This course covers the provision of advanced first aid response, life support, management of casualties, the incident and other first aiders, until the arrival of medical or other assistance. Topics include:

- + Advanced airway management
- + Cardiopulmonary resuscitation techniques
- + Bag-valve-mask ventilation
- + Safe use of an defibrillator (AED)
- + Bleeding, fractures and other trauma
- + Eye and soft tissue injuries
- + Burns and electric shock
- + Envenomation
- + Poisoning
- + Hyperthermia and hypothermia
- + Infection control procedures
- + Secondary survey casualty assessment
- + Assessment of vital signs
- + Coordinating first aid activities
- + Triage of multiple casualties
- + Evaluation of response to critical incidents
- + Verbal and written reports of the incident
- + Legislative requirements in first aid
- + Review of contingency planning

Entry Requirements

Prior to enrolment in this advanced unit, participants should have some previous experience in first aid and must have attained HLTAID003 Provide first aid or higher level unit. It is recommended participants have language, literacy and numeracy skills equivalent to level 3 of the Australian Core Skills Framework (ACSF). Prior to the start of face-to-face training there will be a short knowledge quiz to check language, literacy and numeracy. Participants should also have the ability to meet the considerable physical demands of the practical skills.

Assessment Methods

Progressive assessment throughout the course, including demonstration of practical skills and written and oral questions relating to underpinning knowledge. Note that the provision of CPR must be demonstrated on the floor.

Award Issued

A nationally-recognised Statement of Attainment will be issued to all successful participants.

Further Info

Please refer to the Student Handbook for additional information.
